

Appendix H – Digital

STP Themes

STP Theme <i>(Includes some references from slides)</i>	Local Digital Roadmap links to the STP Theme
<p>Prevention, early intervention and self-care</p> <p><i>Achieving a radical shift towards prevention, early intervention and self-care across the patient pathway.</i></p> <p>Enabling care settings and workforce to be innovative and effective in supporting self-care e.g. using digital technology</p> <p>A system-wide approach that takes account of the needs of specific groups</p>	<ul style="list-style-type: none"> • Connecting Care <p>Developing and enhancing our existing information sharing from and to all parts of our system – on the back of more fully developed digital records. Improving interoperability. Enabling a ‘shift’ and putting citizens at the heart of their ‘personal health records’. Supporting the wellness of people and communities and out of hospital care</p> <ul style="list-style-type: none"> • The Information Engine <p>Fully utilising our electronic data and intelligence to power our planning and delivery engine. Devising new and innovative ways to use information, integrated population analytics and data driven decision making.</p>
<p>Integrated primary, community and social care</p> <p><i>Improve resilience of local primary care services</i></p> <p><i>Integrated health & social care teams</i></p> <p><i>An integrated health and care single point of access</i></p> <p>A single integrated approach with multi-disciplinary teams based around the primary care clusters</p> <p>A single service provided across BNSSG and aligned to each acute hospital, preventing admissions and supporting timely discharge, including for</p>	<ul style="list-style-type: none"> • Primary Care At Scale <p>Focuses on maximising digital across GP practices and Out of Hours services. Supporting primary and community care reconfiguration, new integrated team working and maximising efficiency of practices through shared ways of using technology. This is also about how we can better support people and communities out of hospital</p> <ul style="list-style-type: none"> • Paperless 2020 <p>Embedding and developing fully digital records in acute, community, mental health and social care. Enabling true electronic record keeping, and sharing of those records.</p> <ul style="list-style-type: none"> • Infrastructure & Support <p>Ensuring we do all the above on a solid, efficient infrastructure and delivery mechanism – how we organise our delivery, how we run our digital services and how we work (people, systems & processes). This will include a strong focus on enabling mobile working across our community teams.</p>
