

Cleft Collective Speech and Language Study Monthly Update!

Issue 32, July 2019

Number of participants recruited in June 2019

Surgical Forms

As part of the main cleft collective study, surgeons are asked to complete a form providing details about the nature of the child's physiology and the type of operation they are doing.

If you are aware that a child is scheduled for surgery soon, could you remind them to complete surgical forms for **all** of the operations children in the Cleft Collective undergo from the cleft team – not just the first operation.

As always please do get in touch with us if you need any resources, or if you have any questions.

Recruitment Past your site targets

Many sites agreed to recruit a specific number of parent child dyads. Most have now reached or exceed this target. Please continue to recruit past this target and contact us if you need any help or information.

Estimated percentage of eligible participants recruited at each site to end of June 2019
