

Cleft Collective Speech and Language Study Monthly Update!

Issue 39, March 2020

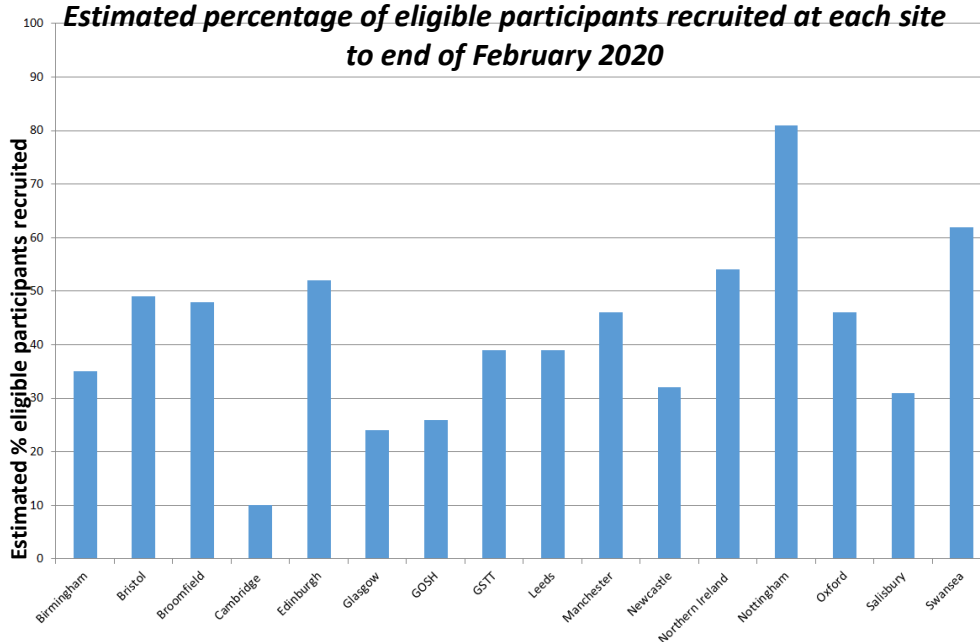

**Number of participants recruited since last update
(February 2020)**

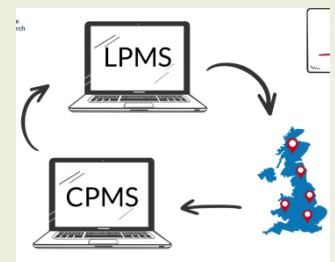

Thank you for all your help with checking the recruitment figures of LPMS!

If you have any concerns about your recruitment do contact us.

Estimated percentage of eligible participants recruited at each site to end of February 2020

To reflect the changes in LPMS/CPMS we have changed the way we are reporting the recruitment figures on the monthly update. We are now including the previous 2 months of received consent forms. This will allow you to see recruitments that we had not received in the post when we compiled the previous update. E.g., for this month there are 4 additional recruits from Belfast in January which were not reported in the last monthly update.

As always please do get in touch with us if you need any resources, or if you have any questions.
