

Cleft Collective Speech and Language Study Monthly Update!

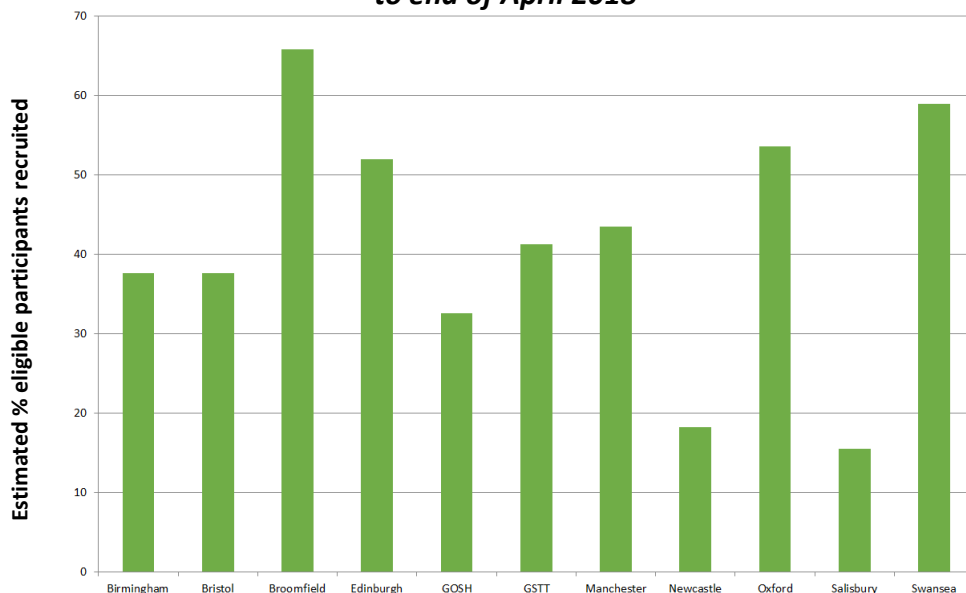

Issue 19, April 2018

Number of participants recruited in April 2018

Cambridge and Leeds will soon be recruiting for the study!
Glasgow and Nottingham are in the process of obtaining approvals

Estimated percentage of eligible participants recruited at each site to end of April 2018

Help us understand the **barriers** to recruitment! Studies have identified such things as:

1. Competition for research participants at an organisational level
2. Tension between clinical and clinical research workloads
3. Perceived imbalance between personal patient burden and benefit
