

Cleft Collective Speech and Language Study Monthly Update!

Issue 34, September 2019

Number of participants recruited in August 2019

Changes to recruitment reporting!

In April the NIHR CRN changed the way research activity data (recruitment) are reported on their national Central Portfolio Management System (CPMS)*

* The main change is that each site is responsible for their own data uploads, rather than it being centralised with BSLTRU and the Cleft Collective.

If you do not agree with the figures we report on this monthly update, or find there are inaccuracies on your local portfolio management system (LPMS), in the first instance, please check your records.

If the problem persists, please contact:
Kerry Humphries
K.Humphries@bristol.ac.uk

This YouTube video provides a guide to these changes and might be of interest to you:
