

# Cleft Collective Speech and Language Study Monthly Update!

Issue 12, September 2017

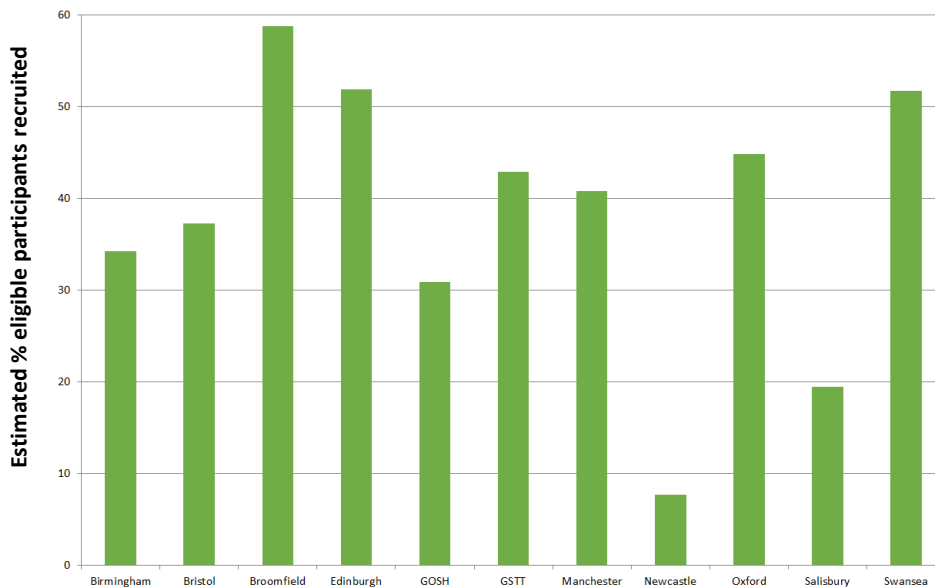

## Number of participants recruited in August 2017

A good month! But we have a challenge for you!  
Can you recruit a minimum of 2 pairs of parent and child a month?

## Estimated percentage of eligible participants recruited at each site to end of August 2017

As of the end of August we have recruited **437** people.

With the study extension we are again hopeful about reaching the study target of 1200.

To achieve this we need to recruit **15 pairs** every month across the sites.

Share your expertise:

- How do you explain the LENA device to parents?
- When have you found it best to recruit parents?
- What challenges do parents have to overcome to allow them to participate?

Please do get in touch with us if you need any resources, or if you have any questions.
