

Home Visiting Service

Our home visitors can offer you between 6 to 10 visits with additional telephone support if required.

Our Home Visiting Service is aimed at women who are too unwell to attend a group or access counselling but feel the need for face-to-face support. Our Home Visitors can offer you listening and planning visits and work with you to decide what will be most helpful for your individual circumstances. This service can help increase emotional wellbeing and resilience and have a positive effect for the whole family. We will help you to increase your confidence and progress to accessing other services such as our support groups or other activities in your own communities.
