10:39
23/04/2015

The system will ask you a series of questions to validate the request. As per the 2ww form.

This is a requirement of the endoscopy accreditation (JAG) and will help the endoscopy unit to plan for the necessary scope

G2WUGOGD Barium Swallow RP

OGD High dysphagia and Anaemia

If referring for difficulty swallowing at the level of the throat, consider barium swallow or referral to ENT instead of OGD.

Refer patient with iron deficiency anaemia via the iron deficiency anaemia 2WW pathway to book both OGD and Colonoscopy.

OGD Continue

Would you like to continue?

Each box asks you the same questions that are included within the current 2WW form. Therefore it is asking for you to confirm the symptoms.

It will go on to ask you a small number of extra questions. If the answer is outside of the scope of the pathway then it will inform you that the patient is not suitable and recommend another test.

G2WUGOD Symptoms

OGD Information

Please note that recent onset means NEW and not a recurrence of a previous dyspepsia; persistent is defined as longer than expected (usually over 6 weeks)

OGD Symptoms

Does the patient have any of the following symptoms?

- Age>55 + persistent, recent onset dyspepsia
- Dysphagia
- Persistent vomiting and weight loss
- Dyspepsia (any age)+persistent vomiting
- Dyspepsia (any age)+Suspicious barium meal result
- Dyspepsia (any age)+Chronic GI bleeding
- UWD*+ Barrett's oesophagus
- UWD*+ Dysplasia/atrophic gastritis/int.metaplasia
- UWD*+ Peptic ulcer surgery over 20 years ago
- None of the above

OGD Definition

*UWD - Unexplained Worsening of Dyspepsia after history/GP investigations

OK

This page and the following couple are key to help endoscopy effectively plan that patients scope. Please answer as fully as possible

The screenshot shows the Sunquest ICE Desktop interface. At the top, patient information is displayed: Patient Name: ICETESTING1 ZZZTESTICE, Hospital Number: 6105831, Sex: Male, Date of Birth: 10 October 1960, NHS Number: No NHS Number, Address: SOUTHMEAD HEALTH SERVICES NHS TRUST, SOUTHMEAD ROAD, WESTBURY-ON-... Telephone No: [blank]. Navigation tabs include GP Blood Sciences, Rad Plain Film, Rad MRI, Rad CT, Ultra-sound, Nuclear Medicine, Fluoro-scscopy, Inter-ventional, and Micro-biolog. The main content area shows a search for 'GP 2WW Upper GI Gastroscopy Referral' (checked) and 'GP 2WW Iron Deficiency Anaemia Referral' (unchecked). A 'Set as Default Panel' button is visible. Below this is a table of 'Most recent requests made for this patient:' with columns for Requested, Investigations, Priority, Loc, Ordered, and Status. A green arrow points to a 'Continue with request...' button in the bottom left corner of the interface.

Requested	Investigations	Priority	Loc	Ordered	Status
18 Mar 2015 11:21:15	TIA Clinic Referral	Referral	Bedm Fam OP	nbz0075	REQ
06 Mar 2015 10:37:51	GP 2WW Iron Deficiency Anaemia Referral	Referral	Admin	nbz0075	REQ
23 Feb 2015 14:14:20	Electrolytes., Random Glucose (Plasma), Liver Function Test	Request	L81038	gpdev	REQ
18 Feb 2015 09:23:38	GP 2WW Iron Deficiency Anaemia Referral	Referral	Admin	nbz0075	REQ
17 Feb 2015 09:11:53	Mobile Image Intensifier Hip Rt	Request	T&OOP	Doctor	OR

NBT will arrange for the test to take place within two weeks of you clicking “continue with request”

The trust will contact you with the outcome of the diagnostic within 48 hours of it being conducted, but is aiming for 24. If the patient has an abnormality then NBT will pick up the care. If not then you will be provided with advice and guidance with the patient discharged back to your care.
