

Urodynamics - Consolidating Your Practice Online 1-day course

Tuesday 13th April / 8th June 2021

This one day online course, reviews urodynamics quality and trace interpretation based on patient cases, and gives updates on urodynamic practice.

The course is intended for doctors, nurses, scientists and/or technicians who have previously attended a Bristol or other approved urodynamic course, and who would like a refresher course. Delegates will be encouraged to submit their own urodynamic traces for discussion. This is an interactive course and places are limited to 12 delegates per course.

This course is recognized by the United Kingdom Continence Society (UKCS) for recertification in urodynamics.
