

WGS Pathway: Paeds Onc Neuro

Further information and forms can be accessed at
<https://www.nbt.nhs.uk/south-west-genomic-laboratory-hub>

- 5mmx5mmx2mm minimum
- Wrapped in foil and snap frozen with Cryospray
- Store -20° <72 hours

Addition to report to make clear sample available for WGS

- Materials provided by NHSE
- Patient Information for Cancer
 - Patient Information for Cancer - Easy Read

GMS Test Order Form - Cancer

- Record of Discussion**
- Confirms a discussion about the test has taken place
 - Confirms if an offer for research access (NGRL) has taken place

- 2x4ml EDTA (older children/teenagers)
- 1x4ml EDTA (younger children/infant)

Email nbn-tr.bglexportscientist@nhs.net

SWGLH emails for tumour sample collection

Transport frozen with dry ice or Intelsius Orca M Box

- Results returned to clinical team
- Discussion available at genomics Tumour Advisory Board if required

WGS = whole genome sequencing
TOF = test order form
RoD = record of discussion
SWGLH = South West Genomics Laboratory Hub
NGIS = National Genomics Informatics System
NGRL = National Genomic Research Library
